Abstract

In this paper an overall analysis has been done about the relationship between the Rahu and the Computer networking has been predicted. Its transit over the natal Ketu will lead to inverse return and the effects of this phenomenon is related to many areas of life. In this article the focus is given to the effect of Rahu on computer and networking as today's world is computer world. The mobile communication and computer networking became the integral part of today's world. In this paper the brief idea of the inverse transition of Rahu and Ketu is given and the relationship of Rahu and Computer has been implemented.

Key Words: effect of inverse return of the Rahu and Ketu

Introduction

Rahu is known as the north node and it is termed as a malefic planet. In vedic astrology Rahu's structure has no body, it has only a head [1]. Now if we consider a computer then it is also having a structure which resembles a head with no body. A computer (Desktop or Laptop) cannot move by its own and if we give input then it will process that to provide out put. So in general we can say all the work is done by the "head" which is the computer [2]. If we compare the Computer (which includes hardware and software) with Rahu then there are lot of similarities which lead to a vast area of research. There are many things which can be predicted only by comparing Rahu with the Computer. Computers became a big evolution only after 90's especially in India. So the horoscopes of people who are born much before this era cannot be taken as computers were even not introduced at that time. So here the horoscopes of the people living in this age of computers is taken into account. It is well known that the 6th house is for job creation and job opportunity. In the horoscope of Bill Gates, Rahu occupies the 6th house. It is well known that Mr. Gates has created Microsoft which empowered the computer industry. He also created lots of job opportunity. So Rahu in 6th house made that person inclined towards computer and job opportunity will be created for software field or hardware field. An example is given in Figure 1 which represents a horoscope of me and I got two software job in the period of Rahu Mahadasha –Rahu Dasha (from 15-02-2011 to 28-10-2013)

Entrepreneurship

If Rahu is in the 2nd house the definitely it will create some opportunity for making money with the help of computers. The horoscope of Walt Disney is shown in figure 2 and Rahu is in 2nd house which aspects the 6th house (house of job) and 9th house (house of earning). We all know Walt Disney initiated the world of Animation (Cartoon Movies) and it became worldwide popular. Rahu is in the house of Venus and it represents Computer in the field of creativity (in terms of movies). Animation requires computers and Disney studio

is well known for the outstanding animated graphics movies. Because of this Walt Disney became a very famous entrepreneur earning a lot of profit and creating lots of jobs for young generation. It should be taken into account that Rahu is in which house, Rahu aspects which planet. But in general Rahu will lead to some kind of relation with computer. Before 1990s the computer has less impact but after that the computer became an essential part of world. Disney studio also became famous in 1990s with the release of animated movies like Beauty and the Beast, Aladin etc [3].

Figure 3 shows the horoscope of Mark Zuckerberg who is the CEO of Facebook [4]. In the birth chart Rahu is in 2nd house and it is with Sun in the sign of Taurus and Venus is the house

lord. We all know Mark Zuckerberg has created the Facebook social networking site and it would not have possible without the help of computer programming.

Any combination of Rahu and Mercury will give a command over computer language, any combination of Rahu and Mars will lead to the field of Engineering where computers play a vital role. Different outcomes related to computer field will come if Rahu is the in the birth chart.

Inverse Return

It generally represents the transit of ketu over natal Rahu and transit of Rahu over natal Ketu [6, 7]. Rahu represents attachment, fluctuation, smoke, illusion, spark, computer, gambling etc and Ketu represents detachment, devotion, Moksha etc. When this inverse return occurs we can say in general that the either negative with negative will give rise to positive or positive with negative will give rise to negative.

This means if a person has been doing correct things without corruption but not getting appropriate result then his fortune will shine like a bright star. Most favorable result will come into picture. But if a person has been doing lots of things to get profit with the help of corruption then at this time most negative result may come. He may be either sentenced to jail or a death penalty. This inverse return will cause the most extreme results. It is a very sensitive period of time.

Conclusion

Rahu can be related to the computer and the inverse return of Rahu and Ketu always brings extreme results in natives life. At some point of time the native may experience the computer related things either the benefic or malefic effects.
