Introduction

As everything old is good and everything new is bad a common saying is not appreciable. So also everything new is good and vice versa is also not acceptable. The Jyothish sastra is prominent and primitive of all the sciences. It is developing from the beginning of the creation and is evergreen.

*"Yada sukha mayuranam naganam manayo yada
Tadvat Vedanta sastranam Jyothisham moorhanisthitam"*

Astrology sees mankind as being not only influenced by hereditary factors and the environment, but also by the state of our solar system at the moment of birth. The planets are regarded as basic life-forces, the tools we live by as well as the basis of our very substance. These planetary forces take on different forms, depending on their zodiacal position and on the way they relate to one another. The aspects formed between the planets describe these relationships, the positions of the planets in relation to the place of birth tell us of their expression in the spheres of life depicted by the astrological houses. By interpreting the roles of these players (the planets) and their qualities (the elements, signs and houses) and creating a synthesis, astrology is able to present a complete and comprehensive picture of the person and his potential, based on the natal horoscope.

Astrology – Definition

Astrology is as old as measured time. The word Astrology is derived from two Greek words, Astra, a star, and Logos, logic or reason. It literally implies the doctrine and law as shown by the stars or planets. Astro means light. Star, eye, Sun the light or rays are commonly used synonyms. Since olden days or time immemorial the Sun., moon, stars, Planets etc., were recognised as sources of light and the enjoyment.

These five factors a comprehensive cosmic psychology, and it is the art of combining them that results in the language of energy called astrology.

Analysis of the Birth Chart

The chart prepared duly taking the exact position of ascendant as the main point along the Bhava divisions is called a “Bhava Chart”. There are 12 Zodiac signs likewise 12 Bhavas also are there in the Zodiac. To study the auspicious and inauspicious results, the Bhava Chart is most useful. Certain natures are attributed to the Bhavas also. To establish a certain Bhava, the lord of Bhava, his status shall be taken into consideration before arriving conclusions.

Out of these Bhavas to predict the marriage details the Seventh Bhava is taken into consideration. The seventh house and its lord play very important role in one’s life. This is the house of cooperation and opposition. As it decides longevity, spouse, partnership, marriage partners, romantic partners, business partners, roommate, counselor to client, doctor to patient, means relationships which require cooperation from another person and compromise with other’s needs or goals.

Importance of Marriage

In Hinduism, ritualistic practices are inherent Samskaras, a Hindu is expected to follow at various stages of his/her life 16 (Shodasha Samskara). Out of this sixteen samskara “Marriage” comes at thirteenth (13th) Samskara. Now a days, we all know about four samskaras namely, Jatakarma, Upanayana, Vivah, Antyeshthi.

Marriage is bliss if it happened at a proper timings. But then, it becomes curse if not done at suitable age or with correct match. “Curse” is nothing but bad karmas done in the past lives with certain class or people. That “Curse” becomes our samskara in this birth in the form of planetary combinations. But more and more marriages today tend to end in divorce. Astrologically, seventh house in kundli decides the stability in married life. It will blossom into a flower or wither depends on planets posited in the seventh house and planets aspecting on seventh house and seventh lord.

In a chart, seventh house signifies native’s spouse or marital life. It tells us so many things about native’s marital life.

Delay of Marriage

Depending on countries and culture marriage age will change, in the western world, there are no set parameters regarding marriage age and you will witness a quite a range in marriage ages there. Whereas in Asian countries like India, getting married in right age is a huge concern, especially for parents who make sure their children get marry at the right age. Now defining the right age of marriage is also a tricky part because every individual have their own reasons and they choose when to marry.:

1. Wealth can be a reason where a person delays his marriage.
2. Education can also be a reason which creates a delay in marriage.

3. Health is a big reason where a person delays his marriage.
