## Natural Calamities and Disasters of Earthquake

**Dr. U Suman Lathaa Metha and Dr. Rudresh M Shastri**

### Abstract

Veda Vyasa narration to Ganesha, as he has composed in three year of time has what come to know as Mahabharata. The basic story is of an 18-day war, which is very unique to existence in this solar system. Besides, the story of Pandava and Kaurava, their legend of mutual hatred and envy that formed the war, there were also peculiar combination occurring among planets in sky. Veda Vyasa, was fathered by Rishi Parasara, and he is also known as Father of Indian Astrology. Thus, taking guidance from such a benevolent sage, it was natural for Vyasa to include crucial aspect of astrological phenomenon of astrology in his text, which will be known by Jaya, the second Sanskrit epic after Ramayana.

**Keywords:** Mahabharata, planets, dating, eclipse

### Introduction

All the disasters occur due to many reasons. Let us analyse with the help of Vedic knowledge. Humans suffer from their own karmic deeds and the acts of governments in addition to acts of god and nature in various facets of life. Unexpected deaths and injuries calamities come from fire, accidents, storms earthquake, hurricane, excessive flooding, excessive heat or cold temperature, virus pandemic all these results in excessive loss of life and property.

With Vedic Astrology our ancient Rishis and Gurus forecast so accurately and prescribed remedies too. Let us now analyse.

In the Ancient Indian Ithihaas - (It happened thus) it is mentioned that in the month of Margashirsha The War of Mahabharata was fought in the bright half of Thrayodashi tithi in Bharani Nakshatra ruling on two days before the full moon manifestation of Eclipse.

In Bhagwat Gita Lord Krishna has described this month of Margashirsha as the month of one of his manifestations. The gravitational attraction of the moon was well understood by our ancient Acharyas along with the shadowy planet RAHU/ KETU which cause eclipse.

However along with the nine planets Uranus, Neptune and Pluto it should be taken which is not done these days-for analysis.

### Key points

1. Destructive Yoga's like Vish Yog, Chandala yoga at the time of calamities results, in the huge disasters
2. When any planet aspects each other Good or Bad effects are seen .For example, Jupiter aspect is beneficial for an individual horoscope and its aspect nullifies the effects of malefic planet but for studying the whole of universe it gives results which are large (huge) by its aspect and also if in 6th 8th or 12th position if any malefic planet or its aspect create problem in disaster if any according to Rahu and Ketu results are foreseen. Similarly other planets also will affect in individual capacity again for example in the case of Saturn, it is long lasting.
3. The elements of that house is the energy of the planet it process.
4. Sun Mars Venus or Mercury planets and also rising in Fire sign
5. Along with Mrigashirsha Forming Yamaghata or Mars Sun or Moon in Mrigshirsha Nakshatra with nodes or inimical planets, many Earthquake foreseen.

**The Earth and its atmosphere** combined with influences of Mars Venus Mercury such that all three are arrayed in position where there will be a great concentration of planetary influence near Jupiter Saturn as these are all correlated to magnetic disturbances on the earth.

Since magnetic disturbances are based on electromagnetic violent currents and sunspots are synchronous with sudden currents passing with oscillations in atmospheric pressure, it result in rain, windstorms, hurricanes earthquakes, tsunamis. Therefore the bond of union between all these phenomena is electricity. The periodicity of this phenomena is owing to the ebb and flow of electricity in our solar system between the Sun and each planet at its equinoctial and solstitial points with its placement in Zodiac sign.

**Earthquake:** Most earthquakes and volcanic eruptions do not strike randomly but occur in specific areas, such as along plate boundaries. One such area is the circum-Pacific Ring of Fire, where the Pacific Plate meets many surrounding tectonic plates. The Ring of Fire is the most seismically and volcanically active zone in the world.

**Types of earthquakes:** Manmade-Minor causes and Tectonic and volcanic earthquakes. Tectonic earthquakes are produced by sudden movement along faults and plate boundaries. Earthquakes induced by rising lava or magma beneath active volcanoes is called volcanic earthquakes.

**Indonesia:** is the home of many active volcanoes, due to its position on the "Ring of fire" area along the Pacific Ocean. More than 75% of the world's volcanoes and 90% of its Earthquakes is seen very often due to Lagna (Ascendant) Sun Mercury Ketu rising in Fire sign the planetary position of the Country.

In India Assam, Earthquake 28th April 7:51am 2021, during 2020, India was shaken by 3 quakes of magnitude 6.0 or above, 26 quakes between 5.0 and 6.0, 385 quakes between 4.0 and 5.0, 419 quakes between 3.0 and 4.0, and 109 quakes between 2.0 and 3.0 in the past 30 days.

The first of the shocks of 6.4 magnitude with its epicenter at 43 km west of Tezpur, the district headquarters of Sonitpur district in Assam, was felt at 7.51 am, Regional Meteorological Centre (RMC) Deputy Director Sanjay O'Neil Shaw said, again on 7th July 8:45 am 2021 5.3 Magnitude. 12 km from Lakhimpur, Assam.

An earthquake of magnitude 6.4 struck 11 km (7 miles) away from Dhekiajuli, Assam, India at 07:51 (IST) on April 28, 2021, The quake struck at a depth of 34 km (21 miles), 140 km (86 miles) north of the main city of Guwahati & Butan.

The effect was felt in almost in the entire North-eastern region and even parts of West Bengal. Seven back-to-back earthquakes jolted Assam and some other north-eastern states causing extensive damage to buildings and forcing people to scamper out of their homes for safety.

- On 28th April 7:51am 2021 6.4 Magnitude
- On 7th July 8:45 am 2021 5.3 Magnitude

### Lagna chart Shastiamsha chart

A) 28th April 2021 Lagna lord rising in Taurus in Mrigashira nakshatra ruled by Angaraka/Mangal. Guru being in 9th house aspect each other.

This Nakshatra has many mythologies unlike other Nakshatra. I will explain all these mythologies as below:

Sita Mata wanted the golden deer. Lord Rama went to fetch the golden deer. The golden deer was the root cause of all the problems to Lord Rama. In Bhagwat Gita also, Lord Krishna has described this month of Margashirsha as the month of his manifestations as the gravitational attraction of the moon. In Vishaka Nakshatra forms a Tripad Dosha. It happens due to

the concurrence of inauspicious yoga as few days before Arjun was expecting to become a grandfather and Abhinayu father, Ashwattama son of Guru Dronacharya first killed the child in the mother's womb by Brahmastra (the ultimate missile of Brahma) Lord Krishna then used Sudharshana chakra to neutralise the effect of Brahmastra and protected the embryo of Uttara wife of Abimanyu due to Yamaghata yoga of new born child Pariskhit he was born lifeless then Lord Krishna gave life through yogic powers (so usually said that again when the same Nakshatra falls the first bath is given to the child after 27th day and shanti pooja is performed.)

Mars moves for long periods or often occurs due to this Nakshatra. Mars in the enemy house of Buddh. Sun Buddh Venus Uranus in the house of Aries, here Sun is exalted but Venus is the enemy of Sun, Saturn in 8th house in Capricorn along Pluto the planet of ending the old or destroy to renew. Jupiter aspects Mars with aspect of Jupiter Moon expanding the land further due to the fiery sign of its position along with Uranus Buddh Venus. Since Mars and Sun both in fiery sign more heat in the Earth crust created the exposure of Earthquake.

The Shastiamsa has a very strong role to know where the problem areas are. As, Destiny has its connections in our current life to our past life (lives) understanding the Shastiamsa is necessary. Sun is being eclipsed Lagna Mars Mercury in Fire sign. Energy of fire and Air is strong inside the land, also strong inside the Earth here.

Saturn aspects Moon and its house, forming Vishyog so this land has lots of exposure or Earthquake very often here with more heat inside the Earth crust.

### Yamaghata Yoga

Inauspicious, Should be avoided for new under-takings and beginning of travel. Only, Shanti prayers to be done for new born on this day and Nakshatra.

Sunday: Magha Thursday: Krittika

Monday: Vishakha Friday: Rohini

Tuesday: Ardra Saturday: Hasta

Wednesday: Moola

### Earthquake Magnitude Scale

Magnitude Earthquake Effects Estimated Number Each Year  
2.5 or less usually not felt but can be recorded by seismograph. 900,000  
2.5 to 5.4 Often felt, but only causes minor damage. 30,000  
5.5 to 6.0 Slight damage to buildings and other structures. 500  
6.1 to 6.9 May cause a lot of damage in very populated areas. 100  
7.0 to 7.9 Major earthquake. Serious damage. 20

**8.0 above can totally destroy communities near the epicenter, One in every 5-10 years**

### Latest earthquakes worldwide

Date	Location	Time	Magnitude	Depth
24/08/21	Chennai Bay of Bengal off Andhra Pradesh Coast	13:04 IST	5.1	10 km
