A study the effect of plannets on Vedic astrology with special reference to sugar patients or diabetic patients by data analysing 6th house of Kundali

Debadatta Sadangi and Dr. Rudresh M Shastri

Abstract

As we know that diabetes has emerged out as major disease in last few decades. Change of lifestyle and lack of exercise are found to be main reasons. Once person get diabetic, it is not possible to cure it. One has to suffer with it for lifetime. Uncontrolled and even in some cases controlled diabetes lead to many side effects on human organs. Untimely death may occur in these cases. So it is need of time that diabetes along with its effects on organs to be studied. In this research work only eye disease, heart disease and urine disease related horoscopes were studied.

Keywords: Vedic astrology, sugar patients, Kundali

Introduction

In many of astrology books it is mentioned that, Venus is responsible for diabetes. As per Phaladīpikā and Jātaka Pārijāta Venus is responsible for diabetes. But in Praśna Mārga, it is mentioned that Jupiter and Venus both are responsible the diabetes. As per Gadāvalī, Moon and Venus both are responsible the diabetes.

In Phaladīpikā, it is stated that, Venus signifies jaundice, diseases caused by the irritation of phlegmatic and windy humours, trouble to eyes, diabetes, urinary diseases, diseases in the generative system, strangury, trouble in cohabitation, exudation of semen, loss (fading away) of bodily splendor as a result of intercourse with courtezans, rickets, fear from witches, female ghosts and female deities and break of friendship with dear friend.

Research Method

In this research work survey method is used. This research work is mainly dependent on the horoscope data collections. In this data collection gender, date of birth, time of birth and place of birth of individual is essential. This data is collected with the help of medical professional, pathologist and astrologers. Hence survey method is used.

Hypothesis

In this research work, the relevant planetary combinations are studied. All the planetary combinations were taken from ancient books. All these planetary combinations mentioned in these books applicable to society at those times. Here hypothesis, assumes that those planetary combinations mentioned for ancient time period are relevant for the modern society also.

Literature Survey

For this research purpose, all relevant ancient astrology books, āyurveda books and modern medicine books were procured and many of them were purchased. All these were studied in detail. All relevant information was collected.

Planetary Combinations for Kidney Disease

The chart shown below indicates the planetary combinations found applicable urinary disease related horoscopes. The total numbers of horoscopes are 230.

Table 1: Shows Rules Cases and its Percentage

Sr. No.	Rules	Cases	Percentage
1	Me8	33	14.35
2	M8	168	73.04

**Fig 1:** Shows cases and percentage**Below is the analysis of above**

Here Rule M8 alone found applicable to 168 horoscopes. The percentage is 73.04%. Hence it can be inferred that if Rule M8 is applicable to horoscopes then individual is more prone to be kidney disease.

From the above crucial conservation, that took place between Karna and Krishna. This all happen when Krishna was about to depart from Hastinapura on the failure of Peace negotiation. Krishna here revealed Karna his real identity, and eagerly want him to join his elder brother camp, however Karna refused it, as the act was a dishonour to his friendship to Duryodhana.

Diabetes

Thus rule L6 and V are combined together found applicable to 387 horoscopes. The percentage is 61.42%. This amount is near to 2/3 of entire horoscopes. Hence it can be inferred that if rules L6 and V are applicable to horoscopes then individual is more prone to be diabetic.

For Eye disease

Here Rule S1, Rule S8 and Rule S12 were found applicable to 175 horoscopes. The percentage is 67.30%. This amount is more than 2/3 of entire horoscopes. Here Rule S1 and Rule S12 were found applicable to 144 horoscopes. The percentage is 55.38%. Hence it can be inferred that if rules Rule S1, Rule M12 and Rule S12 are applicable to horoscopes then individual is more prone to be eye disease.

For Heart Disease

Here Rule S4 and Rule V10 were found applicable to 115 horoscopes. The percentage is 50.00%. This amount is 1/2 of entire horoscopes.

Hence it can be inferred that if rules Rule S4, Rule S11 and Rule V10 are applicable to horoscopes then individual is more prone to be heart disease.

For kidney Diseases

Rule Me8 and M8 were found applicable to 192. Here both rules are found commonly applicable to some of these horoscopes. The percentage is 83.47%.

Here Rule M8 alone found applicable to 168 horoscopes. The percentage is 73.04%. Hence it can be inferred that if Rule M8 is applicable to horoscopes then individual is more prone to be kidney disease.

Scope for Future Research

Interpretation of diabetic horoscopes can be worked as type I, type II and other types. Study of diabetic complications can be worked out on human organs such as skin, nerves, foot, brain etc.

Conclusion

After studying 630 horoscopes, it is found that all planetary combinations given by ancient sages are found to be applicable in modern era. The following conclusion can be drawn after research.

For diabetes following Mahādaśā and Am̐taradaśā Lord Combinations were found more applicable.

Saturn-Rāhu and Rāhu-Venus found applicable to 201 horoscopes out of 303 horoscopes, the percentage is 66.33%. This amount is 2/3 of entire horoscopes.
