## Role of bhoota and kaala in astrology for prediction of truthness detection

### Jitendra Sunte

#### Abstract

It is very important to know the truthness in the court for knowing and finding crime made peoples for judging the right persons. Also in every sector it is highly valuable phase for detecting true things incidents activities involving circumstances. So by addition of bhoota in the body layer the the person will tell whatever happened in past events things. Similarly by adding kaala to the body layer then that person will tell whatever will be happen in future. From this one can judge the right person for situations and circumstances. This paper is dealt in both the word bhoota and kaala.

**Keywords:** Truthness, bhoota, kaala

#### Introduction

There are so many tools to know truthness of a person for finding right person in many sectors it will work. In court, in police station, almost every sector it is very important phase randomly to know such type of truthness. For these incidents leaving bhoota to that person, then that person will tell whatever he made in past situation talks from his mouth. And similarly by leaving kaala to his body then the person will tell in future what he made and what will happen in future. So by knowing these principles behind truth one can avoid future uncomfot happenings. From this way one can protect the nation from draughness, flood, etc any other means such imbalance works can be controlled and schedule good works.

In meditaion and in other such doing activities one can purify person 5 panchbhootas this will help aatmashuddi that is purification of person whole body and soul. These five elements are fire, air, ether or space, water, earth. These five elements are hidden in human body. The purification is necessary to attain stable condition of soul. Finally such soul will goes that path in heaven.the bhoota and laala are some kind of gaseous form of materials things.

The body made from five elements then only that body have soul otherwise not. However the body also made from 24 elements then 7 layer sheaths or covers then that body termed as superior body may be called god.

#### Conclusion

1. To know the truthness in the court for knowing and finding crime made peoples for judging the right persons
2. Detecting true things incidents activities involving circumstances
3. So by addition of bhoota in the body layer the the person will tell whatever happened in past events things
4. Similarly by adding kaala to the body layer then that person will tell whatever will be happen in future
5. One can judge the right person for situations and circumstances.
6. One can protect the nation from draughness, flood, etc any other means such imbalance works can be controlled and schedule good works
7. So by knowing these principles behind truth one can avoid future uncomfot happenings
8. One can purify person 5 panchbhootas this will help aatmashuddi that is purification of person whole body and soul
9. These five elements are fire, air, ether or space, water, earth. these five elements are hidden in human body
