## A study on mind-line with respect to palmistry

Sneha Masta and Dr. Tia Bansal

### Abstract

Mind is the force that enables us to alter our natural life map, making us able to modify our type qualities more powerfully than any other factor. It is an important line, and innumerable experiments have shown that it indicates the amount of mentality, the power of mental concentration, and the ability to self-control. The kind of mind that each subject possesses will be largely the key to their future, for it makes them whatever they are, improves their natural self, and builds up or tears down the strong places in their character.

The study of headlines determines the quality and quantity of brain power present. We can't know anyone or judge anyone by watching them but the hand is always there to study. It has been found that through detailed study inner working and thoughts are disclosed.

**Keywords:** Mind line, type of mind line, signs, symbols, planets

### 1. Introduction

Palmistry is the art of predicting events in the future through the study of the palm. It involves the studying and interpretation of one's palm lines. Palmistry is rather simple if you know all the lines, their meanings, and where they're located. This means that the procedure for conducting a reading isn't as strict or defined as it is for other methods.

I prefer palmistry more than astrology, because if you are not sure about the date and time of birth, then the result may differ in astrology, but in palmistry, the moment of the birth of a person is not so important, instead of lines and marks on the palm of a person are of virtual importance to his life.

This Science is greatly developed in India Our Ancestors studied it thoroughly. If one studies this Science based on indication, then the results will be fully authentic. Nowadays stress has become an important part of life. Every Person is stressed at a certain level. Stress can be defined as any type of change that causes physical, emotional, and psychological strain. Everyone experiences stress to some degree. The way we respond to stress, however, makes a big difference to our overall well-being. It depicts the mental or intellectual ability of the person. It shows the power of the person. It shows the power of the mind and its capabilities. It is located above the lifeline between the thumb and the index finger horizontally.

The Headline reveals a person's wisdom, belief, attitude, thinking ability, strain capacity, and creative ability, as well as the ability of memory self-control, and more. In general, a deep and thin headline is good for a person, but the length, bending chains, donuts, branches, crossing, stars, and islands of the headline conveys a different meaning.

### 2. Types of Lines

- **Long:** If the lines extended and end under the small finger, it is regarded as a long line. If we have such a very clear mind, they are responsively good at thinking and more considerate than others.
- **Medium:** If your headline extends to the ring finger, it is of medium length. Most people are of this kind. You are brilliant. Sometimes even you have a higher ability to do things.
- **Short:** A small part of the person has a short headline that only extends under the middle finger. There are slow to respond and careless but they could finish assigned work in a systematic way.
- **Straight:** If your headline is straight, it predicts that you are very dedicated and have strong analytic and practical abilities. You were usually a born ideologist and could perform well in mathematics, commerce, science, and technological fields.

- **Curved:** You are gentle, tolerant, and realistic and have great skills in fields like mass media, literature social science, and psychology. You can show off your talent compute.
- **Step Downward:** You are fertile of imagination and have high creation ability and artistic talent. You are easy to be influenced by emotion.
- **Chained:** The chained headline is common to see in Palmistry. If your headline is chained, it indicates fluctuating attention, lack of concentration, suspicion, and deliberation. If there are chains at the beginning of the headline, you usually look at pudding headed, with poor memory, disordered thought, at the same time lack of determination, and also are a heavy drinker.
- **Broken:** If the Head line is Broken into two parts then the person can suffer from a sudden illness and interruptions in their career. If there are regular intervals in the line then the person is strong-minded but unfortunately cannot live harmoniously with the partner and can face a breakup.

### 3. Planets

#### ▪ Mars

A person whose headline rises inside the lifeline on the lower mount of Mars has qualities designated by the planet Mars. They would tend argumentative fighting and generally are of quarrelsome dispositions. These qualities will be intensified if the headline goes straight to the upper mount of Mars on the permission under the mount of Mercury.

#### ▪ Saturn

If the mind lines make changes under the mount of Saturn, then it shows different symptoms, if there is an island under the mount of Saturn in the mind line then it shows that the person has to go through a stomach operation or has to suffer through bone problems. If there is a problem on the mind line under the mount of Saturn then it shows person may suffer from a knee problem and piles problems.

#### ▪ Moon

Moon represents an emotional or artistic temperament and the extent of beauty, romance, and creativity idealism in an individual. People with a well-developed mount of the moon are admirers of aesthetics and pleasure and may be artists, musicians, or writers.

A well-developed mount of the moon represents that the subject is always carried away in emotions and cannot see anyone sad. They often imagine beyond reality.

The mind line is deeply connected with the mount of the moon. If the mind line goes through the moon mount, then it gives information about mental trauma, worries, and diseases arising in life.

The native may think excessively because of this. The native will turn ruthless over the smallest of matters. The native sleep will also be obstructed psychologically too the native will get disturbed easily.

#### ▪ Mount of Rahu and Ketu

The position of the mount of these two planets in a palm is controversial. Ancient palmistry does not give many details about the mount of these two planets. Rahu represents our reaction to the existing circumstances whereas ketu represents our reactions to the happenings of the past. The mount of Rahu is present beneath the line of the head in the plain of Mars and the mount of ketu is

present opposite to it between the mount of the moon and the mount of Venus.

#### ▪ Jupiter

The mount of Jupiter is found at the base of the first finger. The mind line and life line both start under the mount of Jupiter. The person having Jupiter mount developed are great leaders, social, developed great leaders, social, devoted, religious, and spiritual too. They are helpful by nature, promised person, and social. They respect their elders and have a successful married life. People having undeveloped Jupiter mount are less courageous, have disbelief in Gods, are less social, and face some issues in married life too.

If Jupiter's mount is developed and the mind line is clear in hand, then the people are creative. They have a great impact and influence on society. They contribute a lot to social work and society. They are respected everywhere and have a great leadership quality

#### ▪ Sun

This mount is found at the base of the ring finger. A person having a good mount of the sun gets easy fame. They can reach their goal and shines like the sun. A person having good sun mount makes you healthy and courageous. A well-developed mount of the sun along with a fortune line in the palm indicates success and growth in life along with respect and popularity in society.

### 4. Signs

#### ▪ Cross

On the headline, a cross mark can indicate a mental block, obstacle, or self-deception. That means the person might lie to himself, believing in something that isn't true for ex- he might believe everything is well in his relationship even though deep down inside, he knows it's not.

- If your headline goes down with a crossing at the end, you may have a serious accident.

- An island below the mount of Apollo which is located below the ring finger shows you usually are weak-eyed.
- An island below the mount of a little finger means you may suffer a nervous breakdown.
- Two islands mean you may suffer once phal asthenia or a memory decline you usually leak common sense, stubborn.

#### ▪ Star

If there is a star on your headline, it indicates that you may get hurt or suffer from diseases especially get a headache. What you should protect well is the head and should try to avoid any injuries to the head.

- If the star is beside the mind line it's a good sign to show your great wisdom.

#### ▪ **Simian Line: Heart line Meets Head Line**

For some people, the headline and the heart line overlap into a single line. It is called the Simian line.

It is generally acknowledged that for men, the simian line symbolizes the ability to create wealth. Many successful men do have the line indicating the hard life, bad luck to loved ones, and a high probability of diversity.

People with the simian line on the carrier front are loyal, honest, and capable of performing well. They are highly responsible. Such people are also good rule-makers and followers. They are not the kinds who are dishonest at work and like the opposite for the right path in achieving issues. Women with the simian line are career-oriented, highly independent, and capable.

If the simian line is on the left hand, they are likely to possess a lot of wealth if on the right hand then you are a good ruler. You are likely to be competent and powerful along with being affectionate.
